

Don Campeau, KKUP 91.5 FM, Cupertino, CA

"This Chicago-based trio has a real knack for combining folk and rock influences. I like the production and playing on the CD and vocals/lyrics are very fine. All in all a really top notch project. Vocalist Sally Maish is delightful throughout. References to Kristen Hersh may not be too far off base but I hear originality at work and baby I call 'em as I see 'em."
